SUMMARY

CS student at NUTECH (4th semester) with hands-on experience building and deploying real-world production systems. Converted an old laptop into a Proxmox home server, built CI/CD pipelines with GitHub Actions, and deployed a live event ticketing system on Microsoft Azure used by real students. Self-taught, hands-on learner open to DevOps internships and junior developer roles.

PROJECTS

NUTECH Farewell Qawwali Night 2026 — Live Event Ticketing System

LIVE IN PRODUCTION

[React \(Vite\)](#) • [Node.js/Express](#) • [PostgreSQL](#) • [Docker](#) • [Azure VM](#) • [Cloudflare](#) • [JWT](#) • [Nodemailer](#)

- Built and deployed a full-stack event ticketing system currently used by real students at NUTECH
- Implemented JWT authentication, role-based access (Admin & Scanner roles), QR code generation
- Automated email delivery with QR tickets via Nodemailer on admin approval
- Deployed on Azure VM with Docker Compose, Nginx reverse proxy, and Cloudflare Tunnel for HTTPS
- Added rate limiting, security hardening, and gate scanner for entry verification

Battery Shop Management System — Dockerized Full Stack App

[Next.js 16](#) • [TypeScript](#) • [PostgreSQL](#) • [Prisma ORM](#) • [Docker](#) • [GitHub Actions](#) • [Self-hosted Runner](#)

- Built complete shop management system with inventory, customer management, invoicing & dashboard
- Implemented CI/CD pipeline using GitHub Actions with self-hosted runner — git push = auto deploy
- Fully containerized with Docker Compose; zero manual deployment needed
- Features: battery inventory, CNIC tracking, invoice printing, real-time revenue dashboard

Home Lab Server — Proxmox + Ubuntu + Docker Infrastructure

[Proxmox](#) • [Ubuntu Server](#) • [Docker](#) • [Docker Compose](#) • [GitHub Actions](#) • [Cloudflare Tunnel](#) • [Networking](#)

- Converted old laptop into production-grade home server using Proxmox virtualization
- Created Ubuntu Server VM, configured Docker containers for multi-app deployment
- Set up self-hosted GitHub Actions runner for automated CI/CD pipelines
- Configured remote access via Cloudflare Tunnel — no port forwarding required

TECHNICAL SKILLS

Frontend

React.js Next.js TypeScript JavaScript
Vite

Backend

Node.js Express.js REST APIs JWT Auth
Prisma ORM

Database

PostgreSQL MongoDB

DevOps & Cloud

Docker Docker Compose Microsoft Azure
GitHub Actions CI/CD Nginx Cloudflare

Infrastructure

Proxmox Ubuntu Server Linux
Virtualization Networking

Tools

Git GitHub VS Code Bash

EXPERIENCE

Full Stack Developer & DevOps Engineer

Apr 2025 – Present

Personal Projects · Self-employed · Islamabad

- Built 2 production-grade full stack applications
- Managed complete infrastructure from dev to deployment
- Automated deployments via CI/CD pipelines
- Deployed on Azure cloud & self-hosted infrastructure

EDUCATION

BS Computer Science

Sep 2024 – Sep 2028

National University of Technology (NUTECH)

Islamabad, Pakistan · 4th Semester

Focused on Linux systems, networking, DevOps, containerization & backend development through self-driven practical projects.
